SUMMARY

A self-motivated EEE student with proficiency in C and Java. I have also worked with MySQL Workbench and know how to query data from a database. I am strong in logical thinking and capable of writing code accordingly. Currently, I am learning Data Structures and Algorithms using Java and also pursuing a course in Full Stack Web Development. I look forward to working in a competitive software environment where I can apply and enhance my skills.

EDUCATION

BE EEE
Government College of Technology,Coimbatore-13
2022-26
CGPA:8.02

HSC
Vidhya Giri Matriculation and Higher Secondary School,Karaikudi.
2020-22
PERCENTAGE : 96.83%

CERTIFICATIONS

JAVA │ MASTERING THE FUNDAMENTALS │ SCALER

- Mastered the fundamental programming of Java in this Course.
- Learnt the Core Java concepts and Differences between Java and other programming languages.

BASICS OF MYSQL - SCALER

- On Completing this course, my Understanding of Structured Query language became stronger.
- Understood How to query and retrieve data from the database using MySql commands and also retrieve data from different tables.
- Learnt the differences between relational and non-relational databases.

PROJECTS

Google Clone page │ HTML

- Created an exact front-end clone of the Google homepage using only HTML.
- This basic project helped me understand how web pages are structured behind the scenes.

Own Portfolio Website │ HTML │ CSS │ JavaScript

- Built my own portfolio website where my details are visible, along with my LinkedIn and GitHub links.
- It was developed using HTML, CSS, and JavaScript, which improved my understanding of both basic front-end and back-end functionality.
- Through CSS customization, I learned how to change the colors and sizes of buttons on my website.
- The site also includes a downloadable version of my resume.
